

Discover A New Career At Belmark

De Pere Manufacturer To Host Career Fair Tuesday, August 16, 2016

For Immediate Release

DE PERE, Wis. – Belmark, a leader in the pressure sensitive label, flexible packaging, and folding carton industry, is experiencing rapid and continuous growth and is actively recruiting employees for multiple positions at its Northeast Wisconsin facilities.

Established in 1977, Belmark is presently growing at a rate of more than four times the industry average, and the company is looking to add more than 90 employees over the next year in the following areas: semi-skilled production workers, press operators, finance, graphics, sales and marketing, customer service, accounting and human resources.

Belmark will host a career fair for job-seekers looking for rewarding career opportunities on Tuesday, August 16. It will be held at the Bemis International Conference Center on the St. Norbert College campus, located at 299 3rd St., De Pere, Wis., 54115, from 1:00-6:00 p.m.

Talent Acquisition Coordinator, Heather Swanson, says career fairs are an excellent way for Belmark to connect with people in the community. Career fairs also allow job-seekers and Belmark's hiring staff to meet in person.

"It gives us a chance to talk to candidates one-on-one and give them an overview of our company," Swanson says. "You get to talk to Belmark team members who can share stories and experiences about what it's like to work for a fast-growing, local company."

During the career fair, candidates will also learn about additional company benefits that make Belmark unique, including a fitness center and our free onsite health clinic, Welmark.

Pre-registration is not required and more information can be found online at belmark.com, [Facebook/Belmark](https://www.facebook.com/Belmark) or [LinkedIn/Belmark](https://www.linkedin.com/company/belmark).

More than 850 people are employed at the company's Heritage Rd. location in De Pere. Belmark's facilities include a four plant campus dedicated to prepress, press, and finishing production. In 2016, the company broke ground on a corporate facilities expansion that will be completed later this year.

###

About Belmark

Belmark inc is a converter of pressure sensitive labels, printed flexible packaging, and folding cartons. It is one of the largest and fastest growing converters in the industry. Belmark focuses on four Key Values to exceed customer expectations. Its commitment and dedication to these values allow Belmark to aggressively grow while profitably exceeding customer needs. A blend of speed, quality, innovation, and exceptional customer service separates Belmark from the competition. Since its beginning in 1977, Belmark has built its business and reputation on providing innovative

labeling and packaging solutions for customers. Throughout Belmark's growth, its original commitment to customer service and quality has been maintained. That commitment is demonstrated in every labeling and packaging solution Belmark delivers.
